Coding
Fishing

PROFESSIONAL PROFILE

I am a CMIS major graduating this August of 2021. I have experience with Java, HTML, and MySQL. I have been a project manager for many teams, including an international team, which has taught me important communication and planning skills. I have a PC Pro certification, Microsoft Office certification, and was on a team that was awarded the SIUE's Scholar's of the Year in 2021.

EXPERIENCE

Projects

BrassHeros App

I was a part of a small international team that created an app called Brass Heros. It's a RPG style game. We used Android Studio to create and push our code to Github. I have learned a lot about working with people in different locations and how to manage an international team through this experience.

Onboarding Project

I was part of a team at SIUE that worked with Bayer to create an onboarding system for their company. I was focused on the front end design of the project. This entailed working with HTML, PHP, Laravel, and Bootstrap. We also migrated our files with our own MySQL database. We completed the project with a working UI, database, and automated email notification system.

Work

Dewey's | 112 E Vandalia St, Edwardsville | 2019-2021

Cook

I contributed to our kitchen through cooking, cleaning, cutting and helping anyone who was falling behind from a busy night.

Green Lincoln | 3760 S 6th Street Frontage Rd W, Springfield, IL 62711 | 2016-2017

Ford/Lincoln Parts Manager

I was responsible for ordering and receiving parts for the vehicles, inventory management, making and receiving many phone calls, helping customers find what they were looking for, and coordinating delivery drivers.

Green Audi Volkswagen | 3901 Wabash Ave, Springfield, IL 62711 | 2014-2016

Volkswagen Technician

I was responsible for diagnosing issues on vehicles, using their online database system, researching information, and following appropriate repair procedures.
